Subject WHITMOYER WASTE DISPOSAL

135282

At our meeting on Monday, it was agreed we would prepare a position paper which could be used to answer specific inquiries from news media on the disposal problem at Whitmoyer. It would not be generally circulated.

The attached represents the information taken from various sources and presents information which I believe to be reliable. If you feel that we should have available such a statement, would you review and return the attached draft to me with your comments?
